Art Unit: 1794

Claims 1, 2 and 4-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, the claims recite “measured with AA-GWR” (emphasis added). There is no description in the specification as to what an AA-GWR is. Consequently, it is suggested that applicants insert the requisite description in their response to this action.
